How to Design and Carry out Questionnaires on Environmental Protection Issues

Objectives:

Development of an environmental questionnaire in order to assess how citizens perceive and represent environmental protection issues.

How to Design and Carry out Questionnaires on Environmental Protection Issues

Activities:

Phase1: Choose an environmental thematic areas from the following:

Air ; Water; Soil; Nature and Biodiversity; Waste; Energy and Radiation; Demography and Economy; Environmental Culture and Sustainable Development

Phase1: Define the target population (young people, students, adults, etc..) which to administer the questionnaire

Phase1: Develop a questionnaire composed by 10-15 questions regarding the environmental thematic area chosen, in one or more of the following issues:

- General perceptions of the citizens
- Possible actions to face environmental problems
- Citizen's opinion about environmental institutions

Phase1: Final presentation of the activities and of the questionnaire developed
