

		DEFINIZIONI D.LVO N. 152		DIZIONARIO WEBSTER	DIZIONARIO WORDNET
Termine Italiano	Termine Inglese	Definizione Italiana	Definizione Inglese	Definizione Inglese	Definizione Inglese
Acqua invasata	flooded water				
Acqua potabile	drinking water				water suitable for drinking
Acqua pubblica	public water				
Acquacoltura	agriculture			Cultivation of living material in prepared nutrient media	The practice of cultivating the land or raising stock
Acque ciprinicole	cyprinoid waters	Le acque in cui vivono o possono vivere pesci appartenenti ai ciprinidi o a specie come i lucci, i pesci persici e le anguille.	waters where can live fishes belong to the species of Cyprinidae, or species like pikes, ocean perch and eels		
Acque comunitarie	community waters				
Acque costiere	coastal waters	Le acque al di fuori della linea di bassa marea o del limite esterno di un estuario	waters out of the low tide line or of the external estuary limit		
Acque destinate al consumo umano	water intended for human consumption				
Acque destinate alla balneazione	bathing freshwaters				
Acque di falda	stratum waters				
Acque di infiltrazione	seepage waters				
Acque di lavaggio	washing waters				
Acque di percolazione	percolating waters				
Acque di raffreddamento	cooling waters				
Acque di scarico	drainage waters	Tutte le acque reflue provenienti da uno scarico	All waste waters derived from a drainage		
Acque di transizione	transition waters				
Acque di vegetazione	vegetation waters				

Acque dolci	freshwaters	Le acque che si presentano in natura con una bassa concentrazione di sali e sono considerate appropriate per l'estrazione e il trattamento al fine di produrre acqua potabile	waters represented in nature with a low concentration of salts, are considered useful to the exctraction and treatment to produce drinking water	water that is not salty especially when considered as a natural resource	relating to or living in or consisting of water that is not salty; "freshwater fish"; "freshwater lakes")
Acque dolci idonee alla vita dei pesci	fishing freshwaters				
Acque dolci superficiali	surface freshwaters				
Acque fluenti	flowing waters				
Acque interne	inland waters				
Acque marine	sea waters			water in or from the sea	water containing salts
Acque meteoriche di dilavamento	meteoric placer mining waters				
Acque minerali	mineral waters				water naturally or artificially impregnated with mineral salts or gasses; often effervescent; often used therapeutically
Acque minerali naturali	mineral waters				
Acque piovane	rain waters			water fallen as rain that has not collected soluble matter from the soil and is therefore soft	drops of fresh water that fall as precipitation from clouds
Acque pompate	pumped waters				
Acque reflue	waste-water				
Acque reflue depurate	sewage purified waters				
Acque reflue domestiche	sewage drinking waters	Acque reflue provenienti da insediamenti di tipo residenziale e da servizi,derivanti prevalentemente dal metabolismo umano e da attività domestiche	waters coming from residential settlements and services ,derived from human metabolism and domestic activities		

Acque reflue industriali	sewage industrial waters	Qualsiasi tipo di acque scaricate da edifici o installazioni in cui si svolgono attività commerciali o di produzione di beni.	Every kind of water drained from buildings or structures with commercial activities or goods production		
Acque reflue liquide	sewage liquid waters				
Acque reflue semiliquide	sewage semi-liquid waters				
Acque reflue urbane	urban waste waters	Acque reflue domestiche o il miscuglio di acque reflue domestiche, di acque reflue industriali ovvero meteoriche di dilavamento convogliate in reti fognarie, anche separate, e provenienti da agglomerato	sewage drinking waters or a mixture of sewage drinking waters, sewage industrial waters that are meteoric placer mining waters directed in a sewage system network often separated, coming from a built-up area		
Acque salate	salt waters			Relating to, living in, located near, or consisting of salt water	water containing salts
Acque salmastre	brackish waters				
Acque salmonicole	salmon waters	Le acque in cui vivono o possono vivere pesci appartenenti a specie come le trote, i temoli e i coregoni	waters where can live fishes belong to the species of trouts, grayling and coregons		
Acque sorgive				Water from a spring	Underground water that is held in the soil and in pervious rocks
Acque sotterranee	groundwaters	Le acque che si trovano al di sotto della superficie del terreno, nella zona di saturazione e in diretto contatto con il suolo e il sottosuolo	waters that we can find under the surface of the land, in the saturation zone and in a direct contact with soil and subsoil	Water within the earth that supplies wells and springs	Underground water that is held in the soil and in pervious rocks
Acque superficiali	surface waters				
Acque superficiali correnti	standing water on the surface of the land				

Alghe	algae		A plant or plantlike organism of any of several phyla, divisions, or classes of chiefly aquatic usually chlorophyll-containing nonvascular organisms of polyphyletic origin that usually include the green, yellow-green, brown, and red algae in the eukaryotes and the blue-green algae in the prokaryotes	Primitive chlorophyll-containing mainly aquatic eukaryotic organisms lacking true stems and roots and leaves)
Allevamenti ittici	fish breedings			
Allevamento di bestiame	livestock breeding			
Alluvioni violente	extreme floods			
Alterazioni morfologiche	morphological alterations			
Ambiente acquatico	aquatic environment			
Analisi dei campioni	sample analysis			
Analisi economica	economic analysis			
Applicazione al terreno	ground implementation	L'apporto di materiale al terreno mediante spandimento sulla superficie del terreno, iniezione nel terreno, interramento, mescolatura con gli strati superficiali del terreno.	Material connection to the ground through the spillage on the ground surface,injection on the ground, disposal in the ground and mixing with superficial layers of the ground.	
Area di mare	area of sea			
Area di terra	area of land			
Aree agricole	agricultural areas			
Aree cimiteriali	cemetery areas			
Aree costiere	coastal areas			
Aree demaniali	domain areas			
Aree di pertinenza	pertinence areas			
Aree di salvaguardia	preservation areas			
Aree industriali	industrial areas			
Aree lagunari	pool areas			
Aree protette	protected areas			
Aree sensibili	sensitive areas			
Aree urbane	urban areas			

Arginamento	impoundment				
Arginazione delle acque	impoundment				
Arsenico	arsenic				
Artigianato	crafts			To make or produce with care, skill, or ingenuity	craftsmanship, workmanship, skill in an occupation or trade
Assetto pedogeomorfologico	pedogeomorphologic organization				
Attività antropica	anthropological activity				
Attività di coltivazione	cultivation activity				
Attività di escavo	excavation activity				
Attività di molluschicoltura	shellfish farming activity				
Attività di prospezione	exploration activity				
Attività di ricerca	research activity				
Autorità competente	competent authority				
Autorità di bacino	basin authority				
Aziende agroalimentari	agricultural food business				
Azione preventiva	preventive action				
Bacini drenanti	drainage area				the geographical area draining into a river or reservoir
Bacini idrografici limitrofi	neighbouring river basins				
Bacini limitrofi	neighbouring basins				
Bacino artificiale	surface water				
Bacino di rilievo interregionale	interregional basin				
Bacino di rilievo nazionale	national basin				
Bacino idrografico	hydrographic basin				
Bassa marea	low tide			the farthest ebb of the tide	the lowest (farthest) ebb of the tide
Beni ambientali	environmental assets				
Bestiame	livestock	Si intendono tutti gli animali allevati per uso o profitto	All the animals reared for use or profit	animals kept or raised for use or pleasure; especially : farm animals kept for use and profit	not used technically; any animals kept for use or profit
Bioaccumulazione	bioaccumulation				
Biocidi	biocides				

Biodiversità	biodiversity	biological diversity in an environment as indicated by numbers of different species of plants and animals	the diversity of plant and animal life in a particular habitat (or in the world as a whole)
Biomassa del fitoplancton	biomass of phytoplankton		
Bonifica	reclamation		the conversion of wasteland into land suitable for use of habitation or cultivation
Buon potenziale ecologico	good ecological potential		
Buono stato chimico delle acque sotterranee	good groundwater chemical status		
Buono stato chimico delle acque superficiali	good surface water chemical status		
Buono stato delle acque sotterranee	good groundwater status		
Buono stato delle acque superficiali	good surface water status		
Buono stato ecologico	good ecological status		
Buono stato quantitativo	good quantitative status		
Caccia	hunt	To pursue for food or in sport	The pursuit and killing or capture of wild animals regarded as a sport
Campionamenti	sampling	the selection of a suitable sample for study	a small part selected as a sample for inspection or analysis
Campionamento di macrofite	macrophyte sampling		
Canale	stream		
Canale di scolo	sewer	an artificial usually subterranean conduit to carry off sewage and sometimes surface water	a waste pipe that carries away sewage or surface water
Canale irriguo	irrigation canal		
Canali artificiali	artificial canal		
Cancerogenicità	carcinogenic		
Capacità di autodepurazione	self purification capacity		

Capacità di invaso	flooded capacity		
Caratteristiche chimiche	chemical characteristics		
	physical characteristics		
Caratteristiche fisiche	characteristics		
Caratteristiche geologiche	geological characteristics		
Caratteristiche idrogeologiche	hydrogeological characteristics		
Caratteristiche idromorfologiche	hydromorphological characteristics		
Caratteristiche microbiologiche	microbiologic characteristics		
Carico organico biodegradabile	biodegradable organic load		
Cartografie	cartography	the science or art of making maps	the making of maps and charts
Catastrofi naturali	natural catastrophe		
Cave	pit	A hole, shaft, or cavity in the ground	A concavity in a surface (especially an anatomical depression))
Censimento acque sotterranee	groundwaters census		
Cianuri	cyanides		
Ciclo idrologico	hydrological cycle		
Circostanze di forza maggiore	circumstances of force majeure		
Cloruri Alcalini	alkaline chloride		
Codici di buona prassi	codes of good practice		
Coltivazione del fondo	fund cultivation		
Culture compatibili	compatible farming		
Culture orticole	vegetable cultures		
Commercio	trade	the persons engaged in an occupation, business, or industry	the commercial exchange (buying and selling on domestic or international markets) of goods and services
Composizione dei macroinvertebrati bentonici	composition of benthic invertebrate fauna		
Composizione della fauna ittica	composition of fish fauna		
Composizione della flora acquatica	composition of aquatic flora		

Composti organofosforici	organophorous compounds			
Composti organostannici	organotin compounds			
Composto azotato	nitrogen compound	Qualsiasi sostanza contenente azoto, escluso l'azoto allo stato molecolare gassoso	Every substance that contains nitrogen, except nitrogen molecular gas state	
Comunità animali	animals communities			
Comunità montane	mountain community			
Comunità vegetali	plant communities			
Concentrazione	concentration			the act or process of concentrating : the state of being concentrated; especially : direction of attention to a single object
				the strength of a solution; number of molecules of a substance in a given volume (expressed as moles/cubic meter))
Concimi chimici	chemist manures	Qualsiasi fertilizzante prodotto mediante procedimento industriale	Every fertilizer produced with a manufacturing process	
Condizioni dei nutrienti	nutrient conditions			
Condizioni di ossigenazione	oxygenation conditions			
Condizioni idrologiche	hydrologic conditions			
Condizioni morfologiche	morphological conditions			
Condizioni termiche	thermal conditions			
Condotta	conduct			the act, manner, or process of carrying on
				manner of acting or conducting yourself
Conduttività idraulica	hydraulic conductivity			
Contaminazione dei suoli	soil contamination			
Continuità fluviale	river continuity			
Controlli delle emissioni	emission controls			
Corpi idrici inquinati	polluted water bodies			
Corpi idrici sovraregionali	overregional water bodies			

Corpi sotterranei	bodies of groundwater		
Corpo idrico artificiale	artificial water body		
Corpo idrico sotterraneo	body of groundwater		
Corpo idrico superficiale	body of surface water		
Corpo ricettore	receiving body		
Corsi d'acqua	watercourse	a natural or artificial channel through which water flows	a natural body of running water flowing on or under the earth
Corsi d'acqua transfrontalieri	transboundary water courses		
Corso d'acqua	water course		
Costa	coast		
Dafnia	daphnia		
Danno ambientale	environmental damage		
Dati ecotossicologici	ecotoxicological data		
Dati tossicologici	toxicological data		
Deflusso vitale	living runoff		
Degrado	degradation	the act or process of degrading	
Degrado delle acque	water degradation		
Delta	delta		
Depuratori	purifier		
Depurazione	purification	the act or an instance of purifying or of being purified	the process of removing impurities
Derivazione	derivation	an act or process of deriving	the source from which something derives
Dighe	dam	a barrier preventing the flow of water or of loose solid materials (as soil or snow); especially : a barrier built across a watercourse for impounding water	a barrier constructed to contain the flow of water or to keep out the sea
Diporto	recreation		
Direttiva	directive		
Direzione delle correnti dominanti	direction of dominant currents		
Disciplina preventiva	prior regulation		

Disinfezione	disinfection		to free from infection especially by destroying harmful microorganisms	treatment to destroy harmful microorganisms
Distretti idrografici	river basin districts			
Distretti idrografici internazionali	international river basin districts			
Distribuzione	distribution			
Divieto di introdurre inquinanti nell'acqua	prohibition on the entry of pollutants			
Drenaggio agricolo	land drainage			
	ecological			
Ecogestione	management			
Ecoregione	ecoregion			
Ecosistemi acquatici	aquatic ecosystem			
Ecosistemi terrestri	terrestrial ecosystems			
Ecotossicità acquatica	aquatic ecotoxicity			
Effluenti di allevamento	breeding effluents	Le deiezioni del bestiame o una miscela di lettiera e di deiezione di bestiame, anche sotto forma di prodotto trasformato	The dejections of the livestock or a litter mixing with the dejections of the livestock, as a transformed product	
Elementi di qualità biologica	biological quality elements			
Elementi di qualità fisico-chimica	physico-chemical quality elements			
Elementi di qualità idromorfologica	hydromorphological quality elements			
Elettrolisi	electrolysis			the producing of chemical changes by passage of an electric current through an electrolyte
Emissioni	emissions			lysis of a bond produced by the passage of an electric current
Enti locali	local authorities			an administrative unit of local government
Equilibri biologici	biological balance			
Equilibrio degli organismi	organism balance			
Escavo di fondali marini	sea bed excavation			
Esposizione alle onde	wave exposure			

Estrazione	mining			to extract from a source	the act of extracting ores or coal etc from the earth
Estrazione delle acque dolci	abstraction of freshwater				
Estrazione di acqua potabile	abstraction of drinking water				
Estrazione di idrocarburi	hydrocarbon extraction				
Estuario	estuary	L'area di transizione tra le acque dolci e le acque costiere alla foce di un fiume, i cui limiti esterni verso il mare sono definiti con decreto del Ministro dell'ambiente; in via transitoria sono fissati a cinquecento metri dalla linea della costa	The transition area between freshwaters and coastal waters at the river mouth, where the external limits are defined with environmental ministerial decree; the transitoriness measure are fixed at five hundred metres from the coastline.	water passage where the tide meets a river current; especially : an arm of the sea at the lower end of a river	the wide part of a river where it nears the sea; fresh and salt water mix
Eutrofizzazione	eutrophication	Arricchimento delle acque in nutrienti, in particolar modo di composti dell'azoto ovvero del fosforo, che provoca una proliferazione delle alghe e di forme superiori di vita vegetale, producendo una indesiderata perturbazione dell'equilibrio degli organismi presenti nell'acqua e della qualità delle acque interessate	Enrichment of waters with nourishing, nitrogen compound or phosphorus that causes a proliferation of algae and superiors shapes of vegetable life that produces an unwelcome perturbation of the organism balance living in water and also the alteration of the quality of the affected waters	the process by which a body of water becomes enriched in dissolved nutrients (as phosphates) that stimulate the growth of aquatic plant life usually resulting in the depletion of dissolved oxygen	
Fabbisogno idrico	water needs				
Falda	water table			the upper limit of the portion of the ground wholly saturated with water	underground surface below which the ground is wholly saturated with water
Falde acquifere	aquifer water table				

Fanghi	mud	I fanghi residui, trattati o non trattati, provenienti dagli impianti di trattamento delle acque reflue urbane	Waste muds coming from the treatment systems of urban waste waters	slimy sticky mixture of solid material with a liquid and especially water	water soaked soil; soft wet earth
Fanghi di depurazione	mud purification				
Fanghi residui	residual waste muds				
Fauna omeoterma	homeothermic fauna				
Fenomeni di siccità	drought phenomena				
Fenomeni naturali	natural phenomena				all non-artificial phenomena
Fenomeno di contaminazione	widespread environmental contamination				
Fertilizzante	fertilizer	Qualsiasi sostanza contenente , uno o piu' composti azotati, sparsa sul terreno per stimolare la crescita della vegetazione; sono compresi gli effluenti di allevamento, i residui degli allevamenti ittici e i fanghi	Every substance that contains one or more nitrogen compound, spread on the ground to stimulate the growth of vegetation, included also breeding effluents, the rests of fish breedings and muds.	one that fertilizes specifically : a substance (as manure or a chemical mixture) used to make soil more fertile	any substance such as manure or a mixture of nitrates used to make soil more fertile
Fitodepurazione	phytopurification				
Fiume	river			a natural stream of water of usually considerable volume	a large natural stream of water larger than a creek
Flusso di acqua dolce	freshwater flow				
Flusso idrico	water flow				
Fluttuazione stagionale	seasonal fluctuation				
Foce	outfall			the outlet of a body of water (as a river or lake); especially : the mouth of a drain or sewer	the outlet of a river or drain or other source of water
Foce di un fiume	river mouths				
Foci di fiumi	estuaries				

Fognature separate	partitioned sewage systems	La rete fognaria costituita da due condotte, una che canalizza le sole acque meteoriche di dilavamento e puo' essere dotata di dispositivi per la raccolta e la separazione delle acque di prima pioggia, l'altra che canalizza le altre acque reflue unitamente alle eventuali acque di prima pioggia	The sewage system network characterized by two conducts, one that canalize only the meteoric placer mining waters and that can be provided with some disposal for the collection and separation of rain waters, the other that canalize waste waters together with possible rain waters
Fonti agricole	agricultural source		
Fonti di acqua dolce	freshwater resources		
Fonti diffuse di inquinamento	sources of pollution		
Foreste	forests		A dense growth of trees and underbrush covering a large tract
			The trees and other plants in a large densely wooded area
Fornitura idrica	supply of water		
Fosfati	phosphates		
Fosforo	phosphorus		a nonmetallic element of the nitrogen family that occurs widely especially as phosphates
			a multivalent nonmetallic element of the nitrogen family that occurs commonly in inorganic phosphate rocks and as organic phosphates in all living cells; is highly reactive and occurs in several allotropic forms)
Fossi	deep		extending well inward from an outer surface
			the central and most intense or profound part
Frantoi oleari	oil mill		
Frequenza temporale del monitoraggio	monitoring frequency		
Funzione riproduttiva	reproduction function		
Funzione steroidea	steroidogenic function		
Funzione tiroidea	thyroid function		
Funzioni endocrine	endocrine function		

Gas di petrolio liquefatto	liquefied petroleum gas		
Gas naturale	natural gas		
Geologo	geologist		a specialist in geology
Gestione dei bacini idrografici	river basin management plans		
Gestione del suolo	soil management		
Gestione di rifiuti	waste management		
Giacimenti a mare	sea deposit		
Giacimenti a terra	ground deposit		
Giacimenti di idrocarburi liquidi	hydrocarbon liquid deposit		
Golfi	gulfs		
Habitat	habitat	the place or environment where a plant or animal naturally or normally lives and grows	home ground -- (the type of environment in which an organism or group normally lives or occurs
Idrocarburi	hydrocarbon	an organic compound (as acetylene or butane) containing only carbon and hydrogen and often occurring in petroleum, natural gas, coal, and bitumens	an organic compound containing only carbon and hydrogen
Idrocarburi gassosi	gaseous hydrocarbon		
Imballaggi	packages	A covering wrapper or container	A collection of things wrapped or boxed together
Immissione diretta nelle acque sotterranee	direct discharge to round water		
Impatto ambientale	environmental impact		
Impatto antropico	anthropologic impact		
Impermeabilizzazione	waterproof	impervious to water; especially : covered or treated with a material (as a solution of rubber) to prevent permeation by water	any fabric impervious to water
Impianti agricoli	agricultural installations		
Impianti di desalinizzazione	desalination plants		
Impianti di incenerimento	incineration system		

Impianti di potabilizzazione	drinking water plant			
Impianti industriali	industrial installations			
Impianti urbani	urban installations			
Impianto di depurazione	purification system			
Impianto di produzione	production plant			
Individuazione cartografica	cartographic location			
Industria alberghiera	Hotel industry			
Infiltrazione	percolation			
Infrastrutture portuali	port facilities			
Iniezione	injection			the forceful insertion of a substance under pressure
Inondazioni	flood		a rising and overflowing of a body of water especially onto normally dry land	inundation, deluge, alluvion - the rising of a body of water and its overflowing onto normally dry land
Inquinamento	pollution	Lo scarico effettuato direttamente o indirettamente dall'uomo nell'ambiente idrico di sostanze o di energia le cui conseguenze siano tali da mettere in pericolo la salute umana, nuocere alle risorse viventi e al sistema ecologico idrico, compromettere le attrattive o ostacolare altri usi legittimi delle acque	The drainage produced directly or indirectly in the water environment of substances or energy that can be dangerous for human health and damage living resources and the ecological water system, compromise the attractions or obstruct other lawful utilizations of waters.	
Inquinamento di origine tellurica	pollution from Land-Based Sources			
Inquinamento idrico	pollution of water			
Inquinante	pollutant			
Inquinanti specifici	specific pollutants			
Insedimenti agroforestali	agroforest settlement			

Insedimenti civili Insediamenti produttivi Insediamenti turistici Insediamenti zootecnici	civil settlement productive settlement tourist settlement animal husbandry settlement		
Interramento lone ammonio Irrigazione	disposal in the ground ammonium irrigation		supplying dry land with water by means of ditches etc lake used to store water for community use
Laghi artificiali	artificial lake		
Laghi internazionali Laghi naturali Lago	international lakes natural lake lake	a considerable inland body of standing water	a body of (usually fresh) water surrounded by land
Laguna	lagoon	a shallow sound, channel, or pond near or communicating with a larger body of water	a body of water cut off from a larger body by a reef of sand or coral
Liquami	sludge	a muddy or slushy mass, deposit, or sediment:a precipitated solid matter produced by water and sewage	the precipitate produced by sewage treatment
Lo spessore Macrofite Mari chiusi	the thickness macrophytes closet seas		
Massa e dinamica del flusso idrico Materia di acque Materiale inorganico Materiale organico Materiali geologici inorganici Materie tossiche Mescolatura	quantity and dynamics of water flow field of water policy inorganic material organic material inorganic geological material toxic matters mixing		
Metalli Metodi di analisi Metodi di campionamento	metals analysis methods sampling methods	to combine or blend into one mass	the act of mixing together

Metodi di controllo	monitoring methods		
Misure di protezione	protective measures		
Molluschicoltura	shellfish farming		
Monitoraggio dello stato chimico	monitoring of the chemical status		
Monitoraggio dello stato delle acque superficiali	monitoring of surface water status		
Monitoraggio dello stato quantitativo	monitoring of the quantitative status		
Mutagenicità	mutagenic		
Natura geomorfologica	geomorphological nature		
Natura salina	saline		
Navigazione	navigation	The science of getting ships, aircraft, or spacecraft from place to place	The guidance of ships or airplanes from place to place
Nitrato	nitrate	sodium nitrate or potassium nitrate used as a fertilizer	any compound containing the nitrate group (such as a salt or ester of nitric acid)
Nutrienti	nutrients	a nutritive substance or ingredient	any substance that can be metabolized by an organism to give energy and build tissue
Oasi di protezione della fauna	fauna protection oasis environmental		
Obiettivi ambientali	objectives		
Opere di urbanizzazione	urbanization works		
Opere ferroviarie	railway works		
Opere viarie	street works		
Organismi comunitari	community organism		
Origine agricola	agricultural source animal husbandry		
Origine zootecnica	source		

Ossigeno	oxygen	a colorless tasteless odorless gaseous element that constitutes 21 percent of the atmosphere and is found in water, in most rocks and minerals, and in numerous organic compounds, that is capable of combining with all elements except the inert gases, that is active in physiological processes, and that is involved especially in combustion	a nonmetallic bivalent element that is normally a colorless odorless tasteless nonflammable diatomic gas; constitutes 21 percent of the atmosphere by volume; the most abundant element in the earth's crust)
Parametri biologici Parametri microbiologici Parchi fluviali Parchi lacuali Parchi nazionali	biological parameter microbiological parameter river parks lake parks national park	an area of special scenic, historical, or scientific importance set aside and maintained by a national government and in the U.S. by an act of Congress	a tract of land declared by the national government to be public property)
Pascolo	pasture	plants (as grass) grown for the feeding especially of grazing animals	a field covered with grass or herbage and suitable for grazing by livestock
Patrimonio ambientale Patrimonio idrico Perdite Perforazioni in mare Permeabilità Pesca Pesticidi	environmental heritage water resources losses sea drilling permeability fishing pesticide	an agent used to destroy pests	a chemical used to kill pests as rodents or insects
Piani di gestione dei bacini idrografici	river basin management plans		

Pianificazione di bacino	basin planning		
Piezometri	piezometer	an instrument for measuring pressure or compressibility; especially : one for measuring the change of pressure of a material subjected to hydrostatic pressure	a measuring instrument for measuring high pressures
Piscicoltura	fish farming		
Politica comunitaria in materia di acque	european water policy		
Politiche agricole	agricultural politics		
Porosità	porosity		
Porti lacuali	lake harbours		
	drinking water		
Potabilizzatori	machine		
Pozzo	well	a pit or hole sunk into the earth to reach a supply of water	a deep hole or shaft dug or drilled to obtain water or oil or gas or brine
Pratica agricola	agricultural politics		
Pratiche agronomiche	agronomic practices		
	anthropogenic pressure		
Pressione antropica			
Previsioni a lungo termine	long-term forecasts		
Processi di autodepurazione	self-purification process		
Processi di desertificazione	desertification process		
Processo biologico	biological process		a process occurring in living organisms
Processo chimico	chemical process		any process determined by the atomic and molecular composition and structure of the substances involved)
Processo fisico	physical process		
Prodotti di decomposizione	breakdown products		
	plant protection products		
Prodotti fitosanitari			

Produzione	production	the act or process of producing	the act or process of producing something
Produzione di energia	power generation		
Produzione idroelettrica	hydroelectric production		
Produzione ittica	fish production		
Profilo qualitativo	terms of quality		
Profilo quantitativo	terms of quantity		
Progetti di bonifica	reclaim project		
Programma d'azione	action programme programme of		
Programma di misure	measures		
Programmi di intervento	programmes of measure		
Protezione a lungo termine	long-term protection		
Protezione ambientale	environmental protection		
Protezione dalle inondazioni	flood protection		
Protezione degli habitat	protection of habitats		
Protezione dell'ambiente marino	protection of the marine environment		
Protezione delle acque	protection of marine waters		
Protezione delle acque costiere	protection of coastal waters		
Protezione delle acque di transizione	protection of transitional waters		
Protezione delle acque dolci	freshwater protection		
Protezione delle acque marine	protection of marine waters		
Protezione delle acque sotterranee	protection of groundwater		
Protezione delle acque superficiali interne	protection of inland surface waters		
Protezione di specie acquatiche	protection of aquatic species		
Pulizia delle acque	water cleaning		
Quadro legislativo	legislative framework		
Qualità ambientale	environmental quality		

Qualità delle acque interne	quality of inland waters			
Qualità ecologica delle acque	ecological quality			
Raccolta	collection		an accumulation of objects gathered for study, comparison, or exhibition or as a hobby	aggregation, accumulation, assemblage :several things grouped together or considered as a whole
Recupero energetico	energy recovery			
Recupero rifiuti	waste recovery			
Regolazione	regulation		a rule or order issued by an executive authority or regulatory agency of a government and having the force of law	the act of bringing to uniformity; making regular
Restituzione	restitution		an act of restoring or a condition of being restored	the act of restoring something to its original state
Rete fognaria	sewage system network	Il sistema di condotte per la raccolta e il convogliamento delle acque reflue urbane	The conduct system for the collection and the convoy of urban waste waters	
Rete idraulica	hydraulic network			
Rete idrica	water network			
Rete irrigua	irrigation network			
Richiesta biochimica	biochemistry request			
Riciclo delle risorse idriche	water recycle resources			
Riduzione dell'inquinamento	pollution reduction			
Rifiuti	wastes		Damaged, defective, or superfluous material produced by a manufacturing process	Waste material, waste matter, waste product -- (any materials unused and rejected as worthless or unwanted
Rifiuti pericolosi	dangerous wastes			
Rinaturalizzazione dei corsi d'acqua	renaturalization watercourses			
Ripristino ambientale	environmental reclamation			

Risanamento	sanitation			the promotion of hygiene making something and prevention of sanitary free of germs as disease by maintenance by sterilizing of sanitary conditions	
Risanamento acque	sanitation waters				
Rischi ambientali	environmental risks				
Rischi idraulici	hydraulic risks				
Rischio ambientale	environmental risk				
Rischio sanitario	health risk				
Riserve naturali	natural reserve				
Risorse agricole	agricultural resources				
Risorse alimentari	food resources				
Risorse forestali	forest resources				
Risorse idriche	water resources				
Risorse viventi	living resources				
Risparmio idrico	water saving				
Riutilizzo dell'acqua	water reuse				
Salinità	salinity				
Scarichi di cadmio	cadmium drainage				
Scarichi di esaclorocicloesano	hexachlorocyclohexane discharges				
Scarichi di mercurio	mercury drainage				
Scarichi indiretti nell'acqua	in direct releases into water				
Scarico	drainage	Qualsiasi immisione diretta tramite condotta di acque reflue liquide, semiliquide e comunque convogliabili nelle acque superficiali, sul suolo nel sottosuolo e in rete fognaria, indipendentemente dalla loro natura inquinante, anche sottoposte a preventivo trattamento di depurazione	Every direct introduction through the conduct of sewage liquid waters and sewage semi-liquid waters and convoy however in surface waters, on soil,subsoil and sewage system network, apart from their polluting nature, also subjected to a preventive purification treatment.	The act, process, or mode of draining	Emptying accomplished by draining
Scarico idrico	water drainage				
Scolo delle acque	water drainage				
Sconfinamento	confinement				

Scopi irrigui	irrigation purpose
Sedimentazione	sedimentation
Sedimentazione dei solidi sospesi	solid sedimentation
Servizio di fognatura	sewage system service
Servizio idrico	water service
Settore terziario	service department
Settori agricolo	agricultural department
Settori industriali	industrial department
Siccità	droughts
Siccità prolungate	prolonged droughts
Silvicoltura	forestry
Sistema di smaltimento	waste disposal system
Sistema ecologico	ecological system
Sistema ecologico idrico	water ecological system
Sistema idrogeologico	hydrogeological system
Sistema idrologico	hydrological system
Sistemi di collettamento	collection systems
Sistemi di depurazione	purification systems
Sistemi di fognatura	sewage systems
Siti contaminati	polluted sites
Siti inquinati	polluted sites
Situazioni idrogeologiche	hydrogeological situations
Smaltimento	disposal
Smaltimento fanghi	mud disposal
Smaltimento rifiuti	waste disposal
Solidi sospesi	hanging solids
Sorgenti	source

The management of growing timber

the science of planting and caring for forests and the management of growing timber

Sewer system, sewage works -facility consisting of a system of sewers for carrying off liquid and solid sewage

the point of origin of a stream of water

the place where something begins, where it springs into being

Sostanza	substance		Matter of particular or definite chemical constitution	that which has mass and occupies space
Sostanze inquinanti	pollutant bioaccumulable			
Sostanze organiche tossiche	organic toxic substances			
Sostanze pericolose	dangerous substances			
Sostanze pericolose prioritarie	priority hazardous substances			
Sostanze prioritarie	priority substances			
Sostanze radioattive	radioactive substances			
Sostanze sintetiche antropogeniche	man-made synthetic substances			
Sostanze tossiche	substances toxic			
Sottobacino	sub-basin			
Sottosuolo	subsoil		the stratum of weathered material that underlies the surface soil	
Spandimento	spillage		the act or process of spilling	the act of allowing a fluid to escape
Specie animali	animal species			
Specie in via d'estinzione	endangered species		a species threatened with extinction	a species whose numbers are so small that the species is at risk of extinction
Stabilimento industriale	industrial plant	Qualsiasi stabilimento nel quale si svolgono attività commerciali o industriali che comportano la produzione, la trasformazione delle sostanze ovvero qualsiasi processo produttivo che comporti la presenza di tali sostanze nello scarico	Every industrial plant where are developed commercial and industrial activities that involve the production and the transformation of substances with a productive process that include their presence in the drainage	
Stagni	pond		a body of water usually smaller than a lake	a small lake
Stagni salmastri	brackish pond			
Stato chimico	chemical status			

Stato delle acque sotterranee	groundwater status		
Stato delle acque superficiali	surface water status		
Stato di acidificazione	acidification status		
Stato ecologico	ecological status		
Stato eutrofico	euthrophic state		
Stato molecolare gassoso	molecular gas state		
Stato quantitativo	quantitative status		
Stazione di depurazione	treatment plant		
Stoccaggio	warehousing	to deposit, store, or stock in or as if in a warehouse	depositing in a warehouse
Stoccaggio dei rifiuti	waste warehousing		
Strati geologici di porosità	layers of geological porosity		
Strati sotterranei di roccia	subsurface layer of rock		
Strati superficiali	surface layers		
Strumenti urbanistici	zoning instruments		
Struttura della zona intercotidale	structure of the intertidal zone		
Struttura e substrato del letto costiero	structure and substrate of the coastal bed		
Struttura e substrato dell'alveo	structure and substrate of the river bed		
Suolo	soil	the part of the earth's surface consisting of humus and disintegrated rock	the upper layer of earth that may be dug or plowed and in which plants grow
Superfici impermeabili	waterproof surfaces		
Superficie del terreno	ground surface		
Taxa acquatici	aquatic taxa		
Tecniche agronomiche	agronomic techniques		
Tenore di ossigeno	oxygen content		
Terrapieni costieri	coastal embankment		
Terreni gelati	ice lands		
Terreni innevati	snowing lands		
Terreni inondati	flooding lands		

Terreni saturi d'acqua **waterlogged lands**
 Torbiere **peat bogs**

Wet spongy ground of decomposing vegetation; has poorer drainage than a swamp; soil is unfit for cultivation but can be cut and dried and used for fuel)

Torrente **stream**

a body of running water (as a river or brook) flowing on the earth

a natural body of running water flowing on or under the earth the degree to which something is poisonous

Tossicità **toxicity**

Tossicità per le persone **human toxicity**
 Tramvie **tramways**

A railway for trams

Conveyance that transports passengers or freight in carriers suspended from cables and supported by a series of towers the act of changing in form or shape or appearance

Trasformazione **transformation**

an act, process, or instance of transforming

Trasparenza **trasparency**
 Trattamento **treatment**

Trattamento biologico **biological treatment**
 Trattamento chimico **chemical treatment**
 Trattamento chimico spinto **pressing chemical treatment**
 Trattamento delle acque reflue urbane **urban waste-water treatment**
 Trattamento fisico semplice **simple physical treatment**

Trattamento primario	primary treatment	Il trattamento delle acque reflue urbane mediante un processo fisico ovvero chimico che comporti la sedimentazione dei solidi sospesi, mediante altri processi a seguito dei quali il BOD ₅ delle acque reflue in arrivo sia ridotto almeno del 20% prima dello scarico e i solidi sospesi totali delle acque reflue in arrivo siano ridotti almeno del 50%	urban waste waters treatment through a chemical , physical process that produces solid sedimentation through other processes where the BOD ₅ of waste waters is reduced about 20% before the drainage and waste waters hanging solids are reduced about 50%		
Trattamento secondario	secondary treatment	Il trattamento delle acque reflue urbane mediante un processo che in genere comporta il trattamento biologico con sedimentazioni secondarie, o un altro processo in cui vengano rispettati i requisiti..	urban waste waters treatment through a process that produces a biological treatment with secondary sedimentation or an other process where are respected the requirements.		
Turismo	tourism			The promotion or encouragement of touring	The business of providing services to tourists
Tutela della qualità dell'acqua	safeguard water quality				
Tutela delle acque	water protection				
Tutela delle acque marine	sea-water protection				
Tutela delle acque sotterranee	underground-water protection				
Tutela delle acque superficiali	surface-water protection				
Uccelli acquatici	water bird			a swimming or wading bird	freshwater aquatic bird
Uccelli selvatici	birds				
Unità geologiche	geological units				
Unità territoriali	territorial units				

Urbanistica	city planning		The drawing up of an organized arrangement (as of streets, parks, and business and residential areas) of a city	Determining and drawing up plans for the future physical arrangement and condition of a community
Uso plurimo Utenti dell'acqua Utilizzazione agronomica	diversified use users of water agronomic utilization	La gestione di effluenti di allevamento, di acque provenienti da aziende agricole e piccole aziende agroalimentari, dalla loro produzione all'applicazione al terreno finalizzata all'utilizzo delle sostanze nutritive.	The management of breeding effluents,vegetation waters derived from the olives cultivation or waste-waters coming from farms and small agricultural food business, from their production at the ground implementation directed to the utilization of nutritive substances.	
Utilizzo delle acque Utilizzo idrico Utilizzo irriguo Valore del pH Valore limite di emissione Valutazione dell'impatto ambientale Variazione della profondità Vegetazione spontanea Viabilità	water use water use irrigation use pH value emission limit values environmental impact assessment depth variation spontaneous vegetation viability			Capable of become practical and useful
Zona di saturazione Zona vulnerabile Zone di riserva Zone umide	saturation zone vulnerable zone reserve zone wetland		land or areas (as tidal flats or swamps) containing much soil moisture -- usually used in plural	a low area where the land is saturated with water

Zone vulnerabili	vulnerable zones	Zone di territorio che scaricano direttamente o indirettamente composti azotati di origine agricola o zootecnica in acque già inquinate o che potrebbero esserlo in conseguenza di tali tipi di scarichi	territorial zones that drain directly or indirectly nitrogen compound originated from agricultural or zootechnic sources in already polluted waters as a consequence of this type of drainages
