Workshop

"HAZARDOUS SUBSTANCES AND WASTES" "

Working group n. 3

Plan a risk assessment exercise in a defined area (river basin, etc.) of national interest, assessing the effectiveness of the European Strategy for the control of Hazardous Substances in the context of national priorities in Egypt.

Activities:

Part 1: EU's combined approach for the control of hazardous substances is based on a number of complementary tools, discuss the applicability of each of them in the national context.

Part 2: Which elements of the administrative system in force should be strengthened? Research? The Legal System? Inspection and enforcement? The Judiciary system?

Part 3: Discuss potential success and failures of Risk-Based management of hazardous substances in the national context
