VERIFICATION FORMS

FOR

THE EUROPEAN ECO-LABEL

EU ECO-LABEL

For

CAMP SITE SERVICE

[April 2005]

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

General Information

Section 1 – details of applicant and product

<i>Please complete or type in black, and submit in duplicate (as a paper copy, not by e-mail) to the Competent Body.</i>	<i>For official use</i>
A. The applicant	
Full name of applicant company:	
Address:	
Contact name, and function:	
Tel no, and fax no:	
E-mail:	
Website:	

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

<i>Please complete or type in black, and submit in duplicate (as a paper copy, not by e-mail) to the Competent Body.</i>	<i>For official use</i>
B. The accommodation	
Registered trade name(s) of the camp site.	
Type of tourist accommodation within camp site premises (bungalows, hotels, other fixed lodging structures) according to official registration.	

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Please tick the types of services offered which are under the ownership or direct management of the camp site in addition to the camping pitches:

Lodging

- a. bungalows/huts/appartments
- b. rental caravans
- c. rental tents
- d. hotel rooms
- e. other: specify _____

Food service

- only breakfast
- bar/kiosk
- vending machine
- shop (s)
- other restaurant services
- other: specify _____

Fitness and sport activities

- swimming pool
- sauna
- other: specify _____

Green areas

- garden
- park
- forest
- farm
- other: specify _____

Category: *Micro enterprise, SME, national chain, international chain.*¹

Range: *if a chain, how many elements of the same chain intend to apply.*

Characteristics:

Please describe any special service or tourist activity which you provide in addition to the above.

¹ Enterprises are defined as on Commission Recommendation 96/280/EC : Micro enterprise has less than 10 employees, SME has less than 250 employees or annual turn over according to the Recommendation.

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

<p>Other EU countries in which this camp site is present under the same name.</p>	
<p>Rough estimate of annual number of overnight stays.</p>	
<p>Rough estimate of value of annual sales, excluding VAT, of the camp site in the European Economic Area (the European Community plus Norway, Iceland and Liechtenstein). Please specify currency, if different from the euro:</p>	

APAT

Technical Services**

Section 2 – Compliance undertakings

In order to apply for the Eco-label the applicant needs to comply with national and local legality requirements for camp site structure and service. The following self-declaration shall be signed by the applicant.

I declare that:

1. the camp site structure is legally built and respects all relevant laws or regulations of the area on which it is built, especially regarding landscape and biodiversity conservation if present,
2. the camp site service is registered as required by national and/or local laws,
3. the camp site respects all safety measures required by law regarding fire and other safety hazards.

Signed:

Name in capitals:

Position in company:

Date:

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	General Legal Requirements
	<i>Sheet n.1</i>

Declaration of compliance with the general legal requirements

I hereby declare that the camp site _____ complies with

- the legal requirements related to the service provided;
- the legal requirements related to building permits;
- the legal requirements related to safety issues;
- the legal requirements regarding landscape integration, management of natural resources and on biodiversity.

I include the following available documentation:

- technical documents/measurements;
- declaration from public authority;
- other _____

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>non</u> applicability	Criterion n.1
	Sheet n.2

Electricity from renewable sources

I hereby declare that criterion n.1 is not applicable to the camp site _____
_____ due to the following situation:

- The camp site does not have access to renewable sources of energy.

I enclose the following documents:

- documentation reporting a list of the electricity providers available and their impossibility to provide electricity from renewable energy resources (see sheet 3).

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of the electricity provider on the impossibility to provide electricity from Renewable Energy Sources (RES)	Criterion n.1
	Sheet n.3

I hereby declare that our company has been asked by _____ to supply electricity from renewable resources.

Our company, however, is not able to provide such electricity.

We imagine that by the date _____ we could be able to provide electricity from renewable resources.

In truth,

Signature of the electricity provider

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of compliance

Criterion n.1

**Situation where the provider provides at least 22% of
electricity from Renewable Energy Sources (RES)**

Sheet n.4

Electricity from renewable sources

I hereby declare that the camp site _____
complies with criterion n. 1

At least 22% of the electricity used by the camp site comes from Renewable Energy Sources

I enclose one of the following documents:

- contract with the electricity provider or bill reporting the nature of the energy source and the percentage of the electricity provided from Renewable Energy Sources;

OR

- declaration from the electricity provider reporting the nature of the energy source and the percentage of the electricity provided from Renewable Energy Sources (see sheet 8).

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.1
Situation where the provider can provide only less than 22% of electricity from Renewable Energy Sources (RES)	Sheet n.5

Electricity from renewable sources

I hereby declare that the camp site _____
complies with criterion n. 1

The maximum electricity from Renewable Energy Sources which can be provided to the camp
site by electricity providers is less than 22%.

I enclose the following documents:

- declaration from the electricity provider reporting the nature of the electricity source and the percentage of electricity provided from Renewable Energy Sources, including a declaration stating that the provided percentage is the maximum possible percentage of electricity from Renewable Energy Sources which can be provided (see sheet 8);

AND

- contract with the electricity provider or bill reporting the nature of the energy source and the percentage of the provided electricity from Renewable Energy Sources.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.1
Situation where auto-production of electricity from Renewable Energy Sources (RES) reaches at least 22%	Sheet n.6

Electricity from renewable sources

I hereby declare that the camp site _____
complies with criterion n. 1

The auto-production² of electricity within the camp site is at least 22% of the overall
electricity consumption per year.

I enclose the following document:

- declaration of a technician stating the nature of the electricity used and the percentage of auto-production of electricity achieved by the camp site with respect to overall yearly consumption (see sheet 9).

In truth,

Signature of the applicant

Date

² **Auto-production** of energy in this context is intended as: the production of energy which originates within the tourist camp site grounds. For example, if the camp site has a photovoltaic system it has auto-production of electricity; if it has solar heat panels, it has auto-production of energy used for heating purposes.

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.1
Situation where auto-production does not allow to reach 22% of electricity from Renewable Energy Sources (RES)	Sheet n.7

Electricity from renewable sources

I hereby declare that the camp site _____
complies with criterion n. 1

The auto-production of electricity within the camp site does not reach 22% of the overall electricity consumption per year but is equal to _____%.

The remaining percentage of electricity from Renewable Energy Sources is purchased from an energy provider as the Renewable Energy Source part of the electricity mix.

The electricity purchased has a mix from Renewable Energy Sources of at least³ :
_____%

I enclose the following documents:

- declaration of a technician or equivalent document stating the nature of the electricity used and the percentage of auto-production of electricity achieved by the camp site with respect to overall yearly consumption (see sheet 9);

AND

- contract with the electricity provider or bill reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources provided in the electricity mix;

OR

- declaration from the electricity provider reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources provided in the electricity mix (see sheet 8).

In truth,

Signature of the applicant

Date

³ The % of RES electricity purchased from an energy provider refers to his electricity mix as the overall amount of energy coming from RES needs to be equal to 22 %. For example, if the camp site produces 15% of its electricity consumption, it shall purchase electricity from an electricity provider with a mix equal to 7% RES electricity (22-15 = 7).

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of the energy provider on the provision of electricity from Renewable Energy Sources (RES)	Criterion n.1
	Sheet n.8

I hereby declare that our company is supplying the camp site _____
_____ electricity
generated from Renewable Energy Sources.

The nature of these renewable sources of electricity is

- wind;
- solar;
- geothermal;
- wave;
- tidal;
- hydropower;
- biomass;
- landfill gas;
- sewage treatment plant gas and biogases;
- cogeneration Heat and Power (CHP)⁴.

The percentage of the overall electricity which the company is providing to the camp site is
_____ %

The maximum percentage of electricity from Renewable Energy Sources which the company
can provide is _____ %.

In truth,

Signature of the energy provider

Date

⁴ Cogeneration is not in itself a renewable source of energy, however, due to the efficiency with which it produces energy, in this context is considered as environmentally positive as the production of energy through renewable sources of energy. Often combined heat and power plants do use renewable sources of energy.

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of the project technician on the electricity from Renewable Energy Sources (RES) produced within the camp site	Criterion n.1
	Sheet n.9

I hereby declare that the camp site _____ has in
place a system of auto-production of electricity from Renewable Energy Sources.

The source of the auto-production of electricity is:

- wind;
- solar;
- other _____

The percentage of the electricity which is auto-produced by the camp site is _____% of
the yearly electricity consumption.

In truth,

Signature of the project technician for the electricity auto-production system.

Date

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>non</u> applicability	Criterion n.2
	Sheet n.10

Coal and heavy oils

I hereby declare that criterion n.2 is not applicable to the camp site _____
_____ due to the following situation:

- The camp site does not have an independent heating system.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.2
	Sheet n.11

Coal and heavy oils

I hereby declare that the camp site _____
complies with criterion n. 2

I declare that the nature of the energy used (excluding electricity for non heating purposes)
within the camp site is :

- gas (methane);
- heavy oil with less than 0,2% sulphur content;
- solar (note that you may also fulfil optional criterion n. 37);
- cogeneration Heat and Power (CHP) (note that you also fulfil optional criterion n. 42);
- electricity used to run a heat pump (note that you also fulfil optional criterion n. 43);
- other _____.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>non</u> applicability	Criterion n.3
	Sheet n.12

Electricity for heating

I hereby declare that criterion n.3 is not applicable to the camp site _____
_____ due to the following situation:

- the camp site does not have an independent heating system;

AND/OR

- the camp site does not have access to electricity from Renewable Energy Sources (RES).

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of the electricity provider on the impossibility to provide electricity from Renewable Energy Sources	Criterion n.3
	Sheet n.13

I hereby declare that our company has been asked by the camp site _____
_____ to supply electricity from Renewable Energy Sources

and that it is not possible at the moment to provide them with such electricity.

We presume that by the date _____ we will be able to provide electricity
from renewable sources.

In truth,

Signature of the electricity provider

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.3
Situation where the electricity provider provides at least 22% of electricity from Renewable Energy Sources	Sheet n.14

Electricity for heating

I hereby declare that the camp site _____
complies with criterion n.3.

At least 22% of the electricity used by the camp site for heating common areas, rental accommodation and sanitary water comes from Renewable Energy Sources.

In addition to electricity, the camp site uses the following energy sources for heating common areas, rental accommodation and sanitary water:

- gas (methane);
- heavy oil with less than 0,2% sulphur content;
- solar (note that you may fulfil optional criterion n. 39);
- cogeneration Heat and Power (CHP) (note that you also fulfil optional criterion n. 43);
- electricity used to run a heat pump (note that you also fulfil optional criterion n. 44);
- other _____;
- no other source of energy.

I enclose one of the following documents:

- contract with the electricity provider or bill reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources provided to heat common areas, rental accommodation and sanitary water;

OR

- declaration from the electricity provider reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources provided to heat common areas, rental accommodation and sanitary water (see sheet 16).

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.3
Situation where the provider can provide only less than 22% of electricity from Renewable Energy Sources	Sheet n.15

Electricity for heating

I hereby declare that the camp site _____
complies with criterion n. 3.

The maximum electricity from Renewable Energy Sources to heat common areas, rental accommodation and sanitary water which can be provided to the camp site by electricity providers is less than 22%.

In addition to electricity, the camp site uses the following energy sources for heating common areas, rental accommodation under the management of the camp site and sanitary water:

- gas (methane);
- heavy oil with less than 0,2% sulphur content;
- solar (note that you may fulfil optional criterion n. 39);
- cogeneration Heat and Power (CHP) (note that you also fulfil optional criterion n. 43);
- electricity used to run a heat pump (note that you also fulfil optional criterion n. 44);
- other _____;
- no other source of energy.

I enclose the two following documents:

- declaration from the electricity provider reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources provided to heat common areas, rental accommodation under the management of the camp site and sanitary water (see sheet 16);

AND

- contract with the electricity provider or bill reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources provided to heat common areas, rental accommodation under the management of the camp site and sanitary water.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of the energy provider on the provision of electricity for heating from Renewable Energy Sources	Criterion n.3
	Sheet n.16

I hereby declare that our company is supplying the camp site _____
_____ electricity
used to heat common areas, rental accommodation under the management of the camp site
and sanitary water generated from Renewable Energy Sources.

The nature of these renewable sources of electricity is:

- wind;
- solar;
- geothermal
- wave;
- tidal;
- hydropower;
- biomass;
- landfill gas;
- sewage treatment plant gas and biogases;
- cogeneration Heat and Power (CHP)⁵.

The percentage of the overall electricity used for heating common areas, rental
accommodation under the management of the camp site and sanitary water which the
company is providing to the camp site is _____%

The maximum percentage of electricity from renewable resources which the company can
provide is _____%.

In truth,

Signature of the energy provider

Date

⁵ Cogeneration is not in itself a renewable source of energy, however, due to the efficiency with which it produces energy, for the purposes of this document it has been considered as environmentally positive as the production of energy through renewable sources of energy. Often combined heat and power plants do use renewable sources of energy

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.3
Situation where auto-production of electricity from Renewable Energy Sources reaches at least 22%	Sheet n.17

Electricity for heating

I hereby declare that the camp site _____
complies with criterion n. 3.

The auto-production of electricity within the camp site is at least 22% of the overall electricity consumption per year used to heat common areas, rental accommodation under the management of the camp site and sanitary water.

In addition to electricity, the camp site uses the following energy sources for heating common areas, rental accommodation under the management of the camp site and sanitary water:

- gas (methane);
- heavy oil with less than 0,2% sulphur content;
- solar (note that you may fulfil optional criterion n. 39);
- cogeneration Heat and Power (CHP) (note that you also fulfil optional criterion n. 43);
- electricity used to run a heat pump (note that you also fulfil optional criterion n. 44);
- other _____;
- no other source of energy.

I enclose the following document:

- declaration of a technician or other equivalent document stating the nature of the electricity used and the percentage of auto-production of electricity achieved by the camp site with respect to overall yearly consumption to heat common areas, rental accommodation under the management of the camp site and sanitary water (see sheet 19).

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.3
Situation where auto-production of electricity from Renewable Energy Sources does not reach 22%	Sheet n.18

Electricity for heating

I hereby declare that the camp site _____
complies with criterion n. 3.

The auto-production of electricity within the camp site does not reach 22% of the overall
electricity consumption per year but is equal to _____%.

The remaining percentage of electricity from Renewable Energy Sources is purchased from
an energy provider as the renewable energy source part of the electricity mix.

The mix of electricity purchased has a mix of at least⁶ : _____% (1)

In addition to electricity, the camp site uses the following energy sources for heating common
areas, rental accommodation under the management of the camp site and sanitary water:

- gas (methane);
- heavy oil with less than 0,2% sulphur content;
- solar (note that you may fulfil optional criterion n. 39);
- cogeneration Heat and Power (CHP) (note that you also fulfil optional criterion n. 43);
- electricity used to run a heat pump (note that you also fulfil optional criterion n. 44);
- other _____;
- no other source of energy.

⁶ The % of RES electricity purchased from an energy provider refers to his electricity mix. When there is auto-production it shall be equal to: 22- % of RES electricity from auto-production. For example, if the camp site produces 15% of its electricity consumption, it shall purchase electricity from an electricity provider with a mix equal to 7% RES electricity (22-15 = 7).

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

I enclose the following documents:

- declaration of a technician or equivalent document stating the nature of the electricity produced within the camp site and its percentage with respect to overall yearly consumption of electricity used to heat common areas, rental accommodation under the management of the camp site and sanitary water (see sheet n.19);

AND

- contract with the electricity provider or bill reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources used to heat common areas, rental accommodation under the management of the camp site and sanitary water provided in the electricity mix [as reported in (1) above];

OR

- declaration from the electricity provider reporting the nature of the energy source and the percentage of electricity from Renewable Energy Sources used to heat common areas, rental accommodation under the management of the camp site and sanitary water provided in the electricity mix [as reported in (1) above] (see sheet n.16).

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u> for the PURCHASE OF A NEW BOILER	Criterion n.4
	Sheet n.21

Purchase of a new boiler within the duration of the EU eco-label award.

Boiler efficiency

I hereby declare that the camp site _____
complies with criterion n.4 regarding the purchase of new boilers.

I declare that on date _____ I have purchased a new boiler of the following kind:

- standard boiler;
- low-temperature boiler;
- gas condensing gas boiler;
- other: specify _____

And that it is is not (please tick the appropriate answer) included in the field of application of Directive 92/42/EEC on efficiency requirements for hot-water boilers fired with liquid or gaseous fuels.

I enclose technical specification from professionals (maintenance or providers) of the boiler indicating the efficiency being at least 90%, as calculated by Directive 92/42/EEC or other relevant national or local law on boiler efficiency.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u> for the EXISTING BOILER	Criterion n.4
	Sheet n.22

Boiler efficiency

I hereby declare that the camp site _____
complies with criterion n.4.

I declare that:

- the boiler is included in the field of application of Directive 92/42/EEC on efficiency requirements for hot-water boilers fired with liquid or gaseous fuels and that it is in compliance with the Directive;
- the boiler is excluded from the field of the Directive 92/42/EEC and it complies with product norms and regulations on efficiency.

I enclose technical specification from professionals (maintenance or providers) of the boiler indicating the type of boiler⁷ and its efficiency, as indicated in Directive 92/42/EEC or other relevant product norms and regulations on boiler efficiency.

I declare that at the time of purchase of a new boiler, if within the duration of the EU eco-label, the efficiency requirements shall be at least 90%, as required by criterion n.4. I shall notify the Competent Body and send technical specification stating compliance with the criterion.

In truth,

Signature of the applicant

Date

⁷ The types of boilers indicated by Directive 92/42/EEC are: standard boiler, low-temperature boiler, gas-condensing boiler; it is necessary to indicate any other type of boiler which may not be included in the Directive.

Declaration of <u>non</u> applicability	Criterion n.9
	Sheet n.31

Energy efficient light bulbs

I hereby declare that criterion n.9 is not applicable to the camp site _____
_____ due to the following situation:

- The camp site has no light bulbs which can be substituted by energy saving Class A light bulbs.

Within the camp site there are light bulbs with the following energy efficiency:

- Class B please indicate where _____
- Class C please indicate where _____
- Class D please indicate where _____
- Class E please indicate where _____
- Class G please indicate where _____

The total number of non-energy efficiency light bulbs in the camp site is _____.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>intent of compliance</u>	Criterion n.9
	Sheet n.32

Energy efficient light bulbs

I hereby declare that the camp site _____
complies with criterion n.9.

- I declare that I shall replace all non energy saving light bulbs with their Class A equivalent, where physical fittings allow it, within one year from the date of application and priority shall be given to those light bulbs which are switched on for over 5 hours daily.

Within the camp site there are light bulbs with the following energy efficiency:

- Class A please indicate where _____
- Class B please indicate where _____
- Class C please indicate where _____
- Class D please indicate where _____
- Class E please indicate where _____
- Class G please indicate where _____

The total number of non-energy efficiency light bulbs in the camp site is _____.

The total number of energy efficient (Class A) light bulbs in the camp site is _____.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.9
	Sheet n.33

One year after award of the EU eco-label

Energy efficient light bulbs

I hereby declare that the camp site _____
complies with criterion n.9.

The accommodation complies with the conditions below:

- At least 60% of the light bulbs with the adequate fittings are Class A energy efficiency.
 - The total number of non-energy efficiency light bulbs within the camp site is _____.
 - The total number of energy efficient light bulbs within the camp site is _____.
 - The percentage of Class A light bulbs within the camp site is _____%

- At least 80% of the light bulbs light bulbs which are switched on for over 5 hours daily are Class A energy efficiency.
 - The total number of non energy-efficiency light bulbs within the camp site which are switched on for more than 5 hours per day is _____.
 - The total number of energy efficiency (Class A) light bulbs within the camp site which are switched on for more than 5 hours per day is _____.
 - The percentage of Class A light bulbs lit for over 5 hours daily within the camp site is _____%

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Within the camp site, due to fittings which do not allow substitution, there still are light bulbs with the following energy efficiency:

- Class B please indicate where _____
- Class C please indicate where _____
- Class D please indicate where _____
- Class E please indicate where _____
- Class G please indicate where _____

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.23
	Sheet n.51

Hazardous waste

I hereby declare that the camp site _____
complies with criterion n.23.

The following hazardous wastes are consumed within the camp site:

- pharmaceuticals, medicines and veterinary compounds;
- wood preservatives;
- biocides and phyto-pharmaceutical substances (insect-killers, garden fertilisers and similar);
- residue of substances employed as solvents;
- mineral oils and oily substances;
- electric material;
- inks, dyes, pigments (toners);
- paints, lacquers, varnishes;
- resins, latex, glues, adhesives;
- photographic chemicals and processing materials;
- batteries and other electrical cells;
- vegetable oils;
- household material (equipment, containing refrigerating liquid or electronic materials);
- other _____
- other _____

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

I enclose the following documents:

- statement from local authority on the lack of collection of hazardous waste;
- OR
- procedures stating how these wastes are handled, including identification of the agency responsible for the collection and/or disposal;
- AND/OR
- other relevant documentation such as contracts with third parties responsible for the collection/disposal of hazardous waste.

I also declare that in case of lack of collection of hazardous waste services from the local authority, the request of such services shall be renewed yearly and necessary documentation kept available for the on-site inspection or a request by the Competent Body.

In truth,

Signature of the applicant

Date

Information to guests

I hereby declare that the camp site _____
complies with criterion n.33.

I enclose the information notice given to guests, covering the following issues:

- environmental policy regarding reduction of environmental impacts;
- some of the main actions taken to reduce environmental impacts;
- information on safety and fire safety aspects
- information on the EU eco-label;
- invitation to guests to help the camp site in its intent.

I enclose the environmental questionnaire given to guests, covering the following issues:

- rental accommodation temperature (intent to avoid overheating and over cooling);
- sensitivity to other energy saving initiatives;
- sensitivity to water consumption (asking for main elements of comfort in order to identify where it is possible to save water without reducing comfort);
- responsiveness to alternative transportation;
- other issues;
- suggestions.

Other data collection

I hereby declare that the camp site _____
complies with criterion n.35.

I enclose the procedures in place to collect the information requested, reporting the
measurements possible.

The camp site offers the following services:

- food services;
- swimming pool;
- golf;
- other leisure activities (specify): _____

Sanitary facility cleaning is

- in-house;
- outsourced

Laundry service is

- in-house
- outsourced

Data relative to the criterion for the previous six months are are not enclosed.

Successive to the EU eco-label award I shall send data yearly to the Competent Body
according to the form in the following tables.

CRITERIA SECTION B

Declaration of <u>compliance</u>	Criterion n.37
	Sheet n.67
Energy	Points achieved _____

Photovoltaic, hydroelectric and wind generation of electricity (2 points)

I hereby declare that the camp site _____
complies with criterion n.37.

The potential output of electricity from the system is _____ kWh/year

The actual output of electricity from the system is _____ kWh/year

I enclose a description of the project and implementation works of the photovoltaic,
hydroelectric or wind power system reporting the electricity generating capacity.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.38
	Sheet n.68
Energy	Points achieved _____

Heating from renewable energy sources (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.38.

The energy consumption for heating rental accommodations and sanitary water from RES is
_____ kWh/year.

The total energy consumption of the camp site for heating indoor areas under the camp site
management and sanitary water is (please report from Table III on **sheet 64**): _____ kWh/year.

The percentage of the RES used to heat rental accommodations and sanitary water is
_____ %

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.39
	Sheet n.69
Energy	Points achieved_____

Boiler energy efficiency (1 point)

I hereby declare that the camp site _____
complies with criterion n.39.

I enclose one of the following documents:

- a report from professional technicians stating the kind of boiler, the boiler efficiency and declaring that the boiler has four stars;

OR

- a copy of the technical booklet of the boiler reporting the number of stars of the boiler.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.40
	Sheet n.70
Energy	Points achieved _____

Boiler NOx emissions (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.40.

NOx emissions of the boiler are the following: _____ mg NOx/ kWh.

I enclose one of the following documents:

- technical specifications from professional technicians stating the kind of boiler, the boiler NOx emissions and declaring that the boiler has four stars or equivalent;

OR

- a copy of the technical booklet of the boiler reporting the number of stars of the boiler.

I shall furthermore keep data from maintenance tests in order to show that performance is kept in time.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.41
	Sheet n.71
Energy	Points achieved _____

District Heating (1 point)

I hereby declare that the camp site _____
complies with criterion n.41.

I enclose one of the following documents:

documentation showing the linkage to the district heating system;

OR

a declaration from the energy provider of the presence of a district heating system to which the camp site is attached.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.42
	Sheet n.72
Energy	Points achieved_____

Combined heat and power (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.42.

I enclose the following documentation:

- a declaration from the heat provider or other authorities stating the type of energy production of the energy received by the camp site and showing that it covers the entire yearly consumption of the camp site;

OR

- a declaration from professional technicians showing that the camp site's own combined heat and power plant supplies 70% or more of the total heat and electricity consumption and indicating the provider and type of energy source of the remaining 30% (or less).

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.43
	Sheet n.73
Energy	Points achieved _____

Heat pump (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.43.

I enclose one of the following documents:

- a copy of the technical booklet reporting the operating conditions of the heat pump;

OR

- a technical report from a technician reporting the operating conditions of the heat pump.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.44
	Sheet n.74
Energy	Points achieved_____

Heat recovery (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.44.

I enclose one of the following documents:

a copy of the project of the heat recovery works in place in the camp site;

OR

declaration of a technician of the heat recovery works in place in the camp site, briefly describing the heat recovery system.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.45
	Sheet n.75
Energy	Points achieved _____

Thermoregulation (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.45.

I enclose one of the following documents:

- declaration of a technician responsible the thermoregulation works present within the camp site briefly describing the recovery system in place;

OR

- a copy of the project or other documents showing evidence of the heat recovery works present within the camp site.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u> from energy technician on insulation performance	Criterion n.46
	Sheet n.76
Energy	Points achieved_____

Insulation of existing buildings (2 points)

I hereby declare that the camp site _____
_____ complies with criterion n. 46.

I include the following information on insulation performances.

Minimum national requirements, according to the location of the camp site are as follows⁸:

Whereas insulation performances of the camp site are the following:

In truth,

Signature of the energy technician

Date

⁸ Please describe the parameters of insulation requirements, according to national or local legislation.

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

**Technical specification on the air conditioning system
energy efficiency**

Criterion n.47

Sheet n.77

Air conditioning (1.5 points)

I hereby declare that the camp site _____ has an air-conditioning system having energy efficiency Class A or equivalent, and therefore complies with criterion n.47 of the EU eco-labelling scheme for camp site.

I include the following,

- a brief description of the system characteristics by the technician responsible for installation, sale and/or maintenance of the air conditioning system.

OR

- technical booklet showing evidence that the air-conditioning system has energy efficiency Class A or equivalent (signed by the camp site owner/ manager)

I understand that the criterion does not refer to the air conditioning appliances which

- can use energy sources other than electricity from mains system,
- are air to water appliances,
- are water to water appliances,
- have a cooling power higher than 12 kW.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Technical specification on the air conditioning system energy efficiency	Criterion n.48
	Sheet n.78

Automatic switching off of air conditioning (1 point)

I hereby declare that the camp site _____
_____ has an automatic system that turns
off the air-conditioning when windows are open and therefore complies with criterion n.48 of
the EU eco-labelling scheme for camp site.

The system characteristics are briefly described as follows:

In truth,

Signature of the technician

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.49
	Sheet n.79
Energy	Points achieved (total) _____

Bioclimatic architecture (2 points)

I hereby declare that the buildings and pitches on the camp site
_____ comply with criterion n.49 for the following
steps taken within the camp site (at least 6):

NATURAL HEATING

Measures are taken to make best use of heating from natural climate

1. appropriate exposure of the buildings and pitches to winter sun;
2. appropriate shelter of camp site from winter winds through natural (vegetation) or artificial devices;
3. appropriate position of windows to use winter sun;

NATURAL LIGHT

Measures are taken to make best use of natural light

4. windows are placed in such a way that natural light on a sunny day is available for at least 8 hours a day for at least six months of the year in common areas;
5. windows are placed in such a way that natural light on a sunny day is available for at least 8 hours a day for at least six months of the year in at least 50% of the rental accommodations;
6. the camp site does not interfere with the opportunity of adjacent buildings to use natural light;

NATURAL COOLING

Measures are taken to make best use of cooling from natural climate

7. appropriate orientation of the camp site buildings and rental accommodation to summer shade and/or shading of pitches through vegetation;
8. appropriate exposure of the camp site buildings, pitches and rental accommodation to summer breezes;
9. appropriate shading of windows with natural or artificial shading devices;
10. appropriate array of windows, rental accommodation, common areas and corridors to enhance natural ventilation;
11. appropriate devices in place to bring air from cool to warm sites (for example through mechanical ventilation systems which input cool air from basement in common areas);

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

NOISE

Measures are taken to reduce the noise transmission

12. common areas are enhanced with material which hinder noise transmission to other parts of the camp site;
13. the camp site buildings and outer boundaries are constructed using material which reduces noise to the outside;
14. vegetation is used to reduce noise transmission on the camp site ground.

BUILDING MATERIALS

Measures are taken to increase the use of local building materials

15. at least one main part of the camp site buildings is built with local materials;
16. at least one main part of the camp site buildings is built with recycled material;
17. there are measures in place to minimise the amount of energy embodied in new construction materials;

LANDSCAPE INTEGRATION

Measures are taken to maximise the integration of the camp site with the landscape

18. according to the site, the camp site is integrated into the landscape;
19. the camp site makes use of local vegetation (for example vegetation which does not need much watering);

20. OTHER specify _____

I enclose at least one of the following documents:

- a technical report on how the points are fulfilled;
- a copy of the projects showing the implementation of the points.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.50
	Sheet n.80
Energy	Points achieved (total) _____

Energy efficient refrigerators (1 point), dishwashers (1 point), washing machines (1 point), dryers/tumblers (1 point) and office equipment (1 point) (up to 5 points)

I hereby declare that the camp site _____
complies with criterion n.50 for the following equipment:

- all household refrigerators and all mini – Frigo-bars;
- all household dishwashers;
- all household washing machines;
- all dryers/tumblers;
- at least 80% of office equipment.

I enclose one of the following documents for each of the equipment complied with:

- a copy of the technical booklet reporting the appropriate energy efficiency Class/Energy Star, as required by the criterion;

OR

- a declaration of the provider or manufacturer on the appropriate energy efficiency Class/Energy Star, as required by the criterion.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.51
Energy	Sheet n.81
	Points achieved _____

Electric hand and hair driers with proximity sensor (1 point)

I hereby declare that the camp site _____
complies with criterion n.51

- all electric hand driers;
- all electric hair dryers;

I enclose one of the following documents for each of the equipment complied with:

- a copy of the technical booklet reporting the outfitting with proximity sensors, as required by the criterion;
- OR
- a declaration of the provider or manufacturer on the outfitting with proximity sensors, as required by the criterion.
- OR
- a copy of the certification /declaration by the certifying organisation that the hand/hair dryer has been awarded an ISO Type I eco-label.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.52
	Sheet n.82
Energy	Points achieved _____

Refrigerator positioning (1 point)

I hereby declare that the camp site _____
complies with criterion n.52.

The actions complied with are at least two of the following and a detailed description is provided:

- The refrigerator is far from or shielded from sources of heat, such as the oven.

Description:

- The cooling tubes of the refrigerator are well cleaned on a regular basis.

Description:

APAT
**Italian National Agency for the Protection of the Environment and for
Technical Services**

There are precise procedures to open the refrigerator as few times as possible.

Description:

In truth,

Signature of the applicant

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Technical specification of the professional technician on the automatic switching off of lights in guest rental accommodations	Criterion n.53
	Sheet n.83
Energy	Points achieved_____

Automatic switching off lights in guest rental accommodations (1 point)

I hereby declare that the camp site _____
_____ has an automatic system that turns
off the lights when guests leave their rental accommodation, and therefore complies with
criterion n.53 of the EU eco-labelling scheme for camp site.

The system is in place in at least 80% of the rental accommodations.

The system characteristics are briefly described as follows:

In truth,

Signature of the technician

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Technical specification of the professional technician on the sauna timer control	Criterion n.54
	Sheet n.84
Energy	Points achieved_____

Sauna timer control

I hereby declare that the camp site _____ has a
sauna timer control which complies with criterion n.54.

The camp site has _____ saunas under the control of the
management of the camp site.

The system characteristics are briefly described as follows:

In truth,

Signature of the technician

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.55
	Sheet n.85
Energy	Points achieved _____

Swimming pool heating with RES (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.55.

The energy consumption of the camp site for heating swimming pool water from RES is
_____ kWh/year.

The total energy consumption of the camp site for heating swimming pool water is (please
report from Table III on sheet 64) : _____ kWh/year.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Technical specification of the professional technician on the automatic switching off of outside lights	Criterion n.56
	Sheet n.86
Energy	Points achieved _____

Automatic switching off outside lights (1 point)

I hereby declare that the camp site _____
_____ has an automatic system that turns
off the outside lights and therefore complies with criterion n.56 of the EU eco-labelling
scheme for camp site.

The system characteristics are briefly described as follows:

In truth,

Signature of the technician

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.57
	Sheet n.87
Water	Points achieved(total) _____

Use of rain water (1.5 points) and recycled water (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.57 for the following water saving actions:

- use of rain water;
- recycling of water.

I enclose the following documents:

- a detailed explanation of the system(s);

AND

- a copy of the project(s) showing the separate paths of drinking and non-drinking water, such that they can never be mixed.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.58
	Sheet n.88
Water	Points achieved _____

Automatic watering system for outside areas (1 point)

I hereby declare that the camp site _____
complies with criterion n.58.

The watering schedule for the outside areas is as follows

Type of planting/greening	Amount of Water used for each watering	Frequency of watering	Time(s) of watering

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Technical specification of a technician on the presence of an automatic watering system for outside areas	Criterion n.58
	Sheet n.89

I hereby declare that the camp site _____
_____ has an automatic system that waters
outside areas according to a pre-established watering schedule.

The system characteristics are briefly described as follows:

In truth,

Signature of the technician

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.59
	<i>Sheet n.90</i>
Water	Points achieved _____

Water flow from taps and shower heads (1.5 points)

I hereby declare that the camp site _____
complies with **criterion n.59**.

The camp site complies with the criterion through the following actions:

- use of water flow reducers;
- reduction of the pressure from source;
- other _____.

As follows is a description of the performances of the devices listed above, and any other relevant documentation:

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.60
	Sheet n.91
Water	Points achieved _____

WC flushing (1.5 points)

I hereby declare that the camp site _____
complies with criterion n.60.

The camp site complies with the criterion through the following actions:

- use two level toilet flush with maximum flush at 6 litres;
- installation of manual flushes with automatic return;
- other _____.

As follows is a description of the performances of the devices listed above:

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.61
	Sheet n.92
Water	Points achieved _____

Dishwasher water consumption (1 point)

I hereby declare that the camp site _____
complies with criterion n.61.

The camp site complies with the criterion due to the following situation:

- the dishwasher(s) present in the camp site have consumption as required by the criterion: the dishwasher has _____ place settings and its water consumption is _____ litres per cycle.

- the dishwasher(s) present in the camp site have been awarded the EU eco-label.

I enclose one of the following:

- technical specification from the professional technicians responsible for sale/maintenance of the dishwasher; or technical documentation provided by the dishwasher's producer which clearly states the consumption of the appliance;

OR

- a copy of the documentation showing the award of the EU eco-label to the dishwasher.

OR

- consumption measurements as average of three cycles, as read from a specifically installed water meter, and relative calculations (see criterion 101).

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.62
	Sheet n.93
Water	Points achieved _____

Washing machine water consumption (1 point)

I hereby declare that the camp site _____
complies with criterion n.62.

The camp site complies with the criterion due to one of the following situations:

- the washing machine(s) present in the camp site have consumption as required by the criterion: the washing machine has _____ kg washload and its water consumption is _____ litres per cycle.
- the washing machine(s) present in the camp site have been awarded the EU eco-label;
- the laundry service provider complies with the criterion.

I enclose one of the following:

- technical specification from the professional technicians responsible for sale/maintenance of the washing machine;
- a copy of the documentation showing the award of the EU eco-label to the washing machine;
- a copy of the technical booklet/documentation from technical maintenance personnel from the laundry service provider showing compliance with the criterion.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.63
	Sheet n.94
Water	Points achieved _____

Tap water temperature flow (1 point)

I hereby declare that the camp site _____
complies with criterion n.63.

As follows is an explanation on how the camp site complies with the criterion:

I enclose one of the following documents:

- a copy of any relevant technical booklets or projects showing the tap flow reduction;
- a copy of the invoice of the implementation of tap water flow reducing devices;
- a declaration from technicians responsible for sale/maintenance/ implementation of the tap water temperature flow regulation system.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Technical description of a technician on the presence of devices regulating tap water temperature flow	Criterion n.63
	Sheet n.95

I hereby declare that the camp site _____
_____ has an automatic system that
regulates the temperature and the flow of water from taps.

The system characteristics are briefly described as follows:

In truth,

Signature of the technician

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.64
	Sheet n.96
Water	Points achieved _____

Shower timers (1 point)

I hereby declare that the camp site _____
complies with criterion n.64.

As follows is an explanation on how the camp site complies with the criterion:

I enclose one of the following documents:

- a copy of any relevant technical documentation showing evidence of how the system turns the showers off after a certain time;
- a declaration from a technician responsible for sale/maintenance/ implementation of the shower timers.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Technical explanation of a technician on the presence of shower timers	Criterion n.64
	Sheet n.97

I hereby declare that the camp site _____
_____ has an automatic system that turns
off the flow of water from showers.

The system characteristics are briefly described as follows:

In truth,

Signature of the technician

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.65
	Sheet n.98
Water	Points achieved _____

Swimming pool cover (1 point)

I hereby declare that the camp site _____
complies with criterion n. 65.

I state that the covering for the pool(s) is used :

- at night , from ___ h to _____;
- when the pool is not used for more than a day;
- other: _____

I enclose documentation regarding the safety measures used to prevent stepping on the covering and swimming underneath the cover:

- type of cover;
- information given to guests;
- copy of signs/ warnings near the pool;
- other : _____

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

Declaration of <u>compliance</u>	Criterion n.66
	Sheet n.99
Water	Points achieved (total)

De-icing (up to 1.5 points)

I hereby declare that the camp site _____
complies with criterion n. 66.

I state that one the following means for de-icing are used on the camp site grounds:

- mechanical means or sand/gravel (1,5 points)

OR

- chemical de-icers, which do not contain more than 1% chloride ion (Cl) (1 point)

OR

- chemical de-icers that have been awarded the EU eco-label or other national or regional ISO Type I eco-labels (1,5 points)

I enclose documentation regarding the de-icing procedures used containing:

- type of de-icing (manual or chemical);
 description of de-icing procedure.

If chemical de-icing is used:

- reason for use in preference to manual de-icing;
 composition and producer's information (including possible eco-label award)

Dangerous Chemicals	Points achieved _____

Detergents (up to 4 points)

I hereby declare that the camp site _____
complies with criterion n.71.

Compliance is achieved with the following detergent categories:

- hand dishwashing detergents;
- dishwasher detergents;
- laundry detergents;
- all purpose cleaners.

I enclose the following data:

Hand dishwashing detergent.

The amount by weight of detergent used in the last year is _____ kg.

The amount by weight of eco-labelled detergent used last year is _____ kg.

The amount by weight of eco-labelled detergent used is _____ %⁹

The eco-label of the detergent is _____¹⁰

Dishwasher detergents,

The amount by weight of detergent used in the last year is _____ kg.

The amount by weight of eco-labelled detergent used last year is _____ kg.

The amount by weight of eco-labelled detergent used is _____ %¹¹

⁹ This ratio should be at least 80%.

¹⁰ If it is the EU eco-label no further check is necessary, for any other label, best check with the Competent Body that it is an EN ISO Type I eco-label.

¹¹ This ratio should be at least 80%.

APAT

**Italian National Agency for the Protection of the Environment and for
Technical Services**

The eco-label of the detergent is _____¹²

Laundry detergents

The amount by weight of detergent used in the last year is _____ kg.

The amount by weight of eco-labelled detergent used last year is _____ kg.

The amount by weight of eco-labelled detergent used is _____%¹³

The eco-label of the detergent is _____¹⁴

All purpose cleaners

The amount by weight of detergent used in the last year is _____ kg.

The amount by weight of eco-labelled detergent used last year is _____ kg.

The amount by weight of eco-labelled detergent used is _____%¹⁵

The eco-label of the detergent is _____¹⁶

I enclose any relevant invoices of the eco-labelled detergents for the last year.

In truth,

Signature of the applicant

Date

¹² If it is the EU eco-label no further check is necessary, for any other label, best check with the Competent Body that it is an EN ISO Type I eco-label.

¹³ This ratio should be at least 80%.

Declaration of <u>compliance</u>	Criterion n.79
	Sheet n.114
Waste	Points achieved (total) _____

Composting (up to 3 points: garden waste 2 points; kitchen waste 1 point)

I hereby declare that the camp site _____
complies with criterion n.79.

According to local guidelines, the camp site fulfils the criterion for the following kinds of composting:

- garden waste;**
- kitchen waste.

Garden waste composting is:

- carried out within the grounds of the camp site;
- transported to a public site;
- given to a private agency.

Kitchen waste composting is:

- carried out within the grounds of the camp site;
- transported to a public site;
- given to a private agency.

The procedures by which composting is carried out are explained below:

APAT
**Italian National Agency for the Protection of the Environment and for
Technical Services**

I enclose, if necessary, one of the following documents:

- a copy of receipt of the organic waste for composting from the public authority;
- a copy of receipt of the organic waste for composting from a private agency.

In truth,

Signature of the applicant

Date

APAT

**Italian National Agency for the Protection of the Environment and for

Declaration of <u>compliance</u>	Criterion n.80
	Sheet n.115
Waste	Points achieved _____

Disposable drink cans (2 points)

I hereby declare that the camp site _____
complies with criterion n.80.

- There is legislation requiring the provision of disposable drink cans within the camp site (fill in both Table I and Table II below).
- There is no legislation requiring the provision of disposable drink cans within the camp site (fill in only Table II).

Table I. The disposable drink cans required by law are described in the following table:

Type of drink*	Location in the camp site	Number of cans sold yearly	Reference to law requiring disposable can*

* required information to be reported.

APAT

Italian National Agency for the Protection of the Environment and for Technical Services

Table II. The types of drinks cans which have been replaced with other options are described in the following table.

Type of drink*	Alternative in place*	Number of items sold yearly
soft drinks ²⁰ (specify)		
colas		
Sprite/7 up		
Fruit flavoured		
Cold tea		
Water		
Beer		

* required information to be reported.

From a management point of view, the camp site has replaced disposable drink cans with other non-disposable options in the following way:

- vending machine only distributes glass or plastic bottles to be returned to reception/other staff;
- bar having only glass or plastic bottles or draught²¹ which are returned to producer;
- other: _____

In truth,

Signature of the applicant

Date

²⁰ Soft drinks are: water based non alcoholic flavoured drinks, both carbonated and non- carbonated, fruit juices.

²¹ Note: if soft drink, water, beer bottles are refillable and there are procedures in place for refilling, criterion n. 93 is also fulfilled! See sheet n 130.

Declaration of <u>compliance</u>	Criterion n.81
	Sheet n.116
Waste	Points achieved _____

Breakfast/food packaging (2 points)

I hereby declare that the camp site _____
complies with criterion n.81.

- There is legislation requiring the provision of single dose breakfast/food packages within the camp site (fill in both Table I and Table II below);
- there is no legislation requiring the provision of single dose breakfast/food packages within the camp site (fill in only Table II).

Table I. The single dose breakfast/food packages required by law are described in the following table:

Type of package	Location in the camp site	Number of packages (or Kg of packages) purchased yearly	Text and reference of law requiring disposable can.

APAT

Italian National Agency for the Protection of the Environment and for Technical Services

Table II. The types of drinks cans which have been replaced with other options are described in the following table.

Type of package	Alternative in place	Number of alternative packages (or Kg of packages) purchased yearly
Jams (specify)		
Honey		
Chocolate		
Cheese		

From a management point of view, the camp site has replaced single use breakfast/food packaging with other non-disposable options in the following way:

- a buffet is in place where the guest helps himself to the food;
- ready filled plates are served;
- big refillable dispensers are present on every table;
- other: _____

In truth,

Signature of the applicant
