

giCASES – Creating a University- Enterprise Alliance for a Spatially Enabled Society

With the support of the Erasmus+ programme of the European Union Knowledge Alliance N° 562657-EPP-A-2015-1-IT-EPPKA2-KA

# giCASES Final Conference

# Co-creation of knowledge and case-based learning in the GI sector 21<sup>st</sup> November 2018

# Congress Centre "Roma Eventi", Rome (IT)

giCASES (<a href="www.gicases.eu">www.gicases.eu</a>) is a Knowledge Alliance project under the Erasmus+ programme of the European Commission. The project aims to enable and strengthen innovation in GI education and industry and to facilitate the collaborative creation, management and sharing of knowledge. These objectives are addressed by developing new, innovative and multidisciplinary approaches to teaching and learning within the Geographic Information (GI) sector, and by facilitating the exchange, flow and co-creation of this knowledge.

## The objectives of the event are:

- To present the giCASES approach on case-based collaborative learning and co-creation of knowledge in the geospatial sector, the development of the pilot case studies and the results of testing.
- To exchange ideas on existing or future initiatives, aiming to promote innovation or to facilitate co-creation of knowledge in the field.
- To discuss different perspectives on university-enterprise cooperation gathering the experience of relevant stakeholders and how to promote the adoption of the university-enterprise case-based approach at an institutional level .

### Venue

"Roma Eventi" Congress Centre – Piazza di Spagna, Via Alibert, 5A, Rome (IT)

### Time

Wednesday 21<sup>st</sup> November 2018, 9:30-13:30
