HYDROGEOLOGICAL RISK MANAGEMENT: GENDER (WOMEN- MEN) ISSUES AND IMPACTS

Thursday 29th October 2015
timing 9:00 -17:30

Italian Senate – Sala Capitolare -
Chiostrò del Convento di Santa Maria
sopra Minerva, Roma

The conference is organized by the Technical Committee for Hydrogeological Risk of Professional Engineers Registration Board of Rome, chaired by Maria Rosaria Di Lorenzo.

It aims at involving participants in a discussion on gender-sensitive risk management.

It focuses on the importance of economic growth, social equality and environmental sustainability, there is a paramount convergence on the fact that gender matters where major challenges and change factors should be faced, even in water cycle and natural disaster risk management. In order for gender issues to be taken into account, there is a need for a systematic and comprehensive methodology in gathering gender-disaggregated data, as well as to increase availability of gender-related indicators and methodologies on key topics in disaster risk management and decision making.

The discussion is organized in three oral sessions and a follow-up session, focusing on the dimensions: hazard, exposure, and management of risks.

N° 6 continuing professional development credit (CFU) will be provided.

Program

H 9:00 – a 9:10 - Registration

H 9:10 – a 13:45

Morning Session

H 9:10 – a 9:15

Welcome

Maria Rosaria DI LORENZO

H 9:15 – a 9:30

Introductory Remarks

Intervento istituzionale

H 9:30-10:30

Roundtable

A more inclusive Society to tackle the hydrogeological risk

Coordinator: **Jacopo Giliberto**, Il sole 24ore

Panelists:

Teresa BOCCIA

*member MC genderSTE-COSTe, member AGGI
(Advisory Group On Gender Issues) ONU-Habitat*

Dóra GROO'

Member Board of Administration EPWS

Elena LUPPI

*Italian Representative Witec ,
European Association in Science Engineering &
Technology*

Maria Cristina RULLI

*Professor in Hydrology and Water Engineering
Polytechnic of Milan*

Leila PICCO

President, Italian Soroptimist International

Flavia ZUCCO

President, Italian Platform Women & Science

H 10:30-11:30

1ST Scientific Session: Hazard

Moderator: *M.Rosaria Di Lorenzo*

Discussant: **Paolo Sammarco**, *University of Rome Tor Vergata*

H 11:30-11:45 break

H 11:45-12:45

2ND Scientific Session: Hazard exposure

Moderator: *Davide Saltari*

Discussant: **Salvatore Grimaldi**, *University of Tuscia*

H 12:45-13:45

Roundtable

The institutional point of view

Coordinator – **Gian Antonio Stella**, *Il Corriere della Sera*

Panelists:

Marijo BOS

Global President, Power Women Network

Carla CAPPIELLO

President, Professional Engineers Board of Rome

Guido CARPANI

Chief of Cabinet Office, Italian Ministry of

Environment

Giuseppe F. M. MARINELLO

President Environmental Commission, Italian Senate

Monica PARRELLA

Director General, Department for Equal Opportunities

Presidency of the Council of Ministers

H 13:45-15:00

Poster Session

H 15:00-17:00

Afternoon Session

H 15:00-16:00

3RD Scientific Session: Risk management

Moderator: *Francesca Assennato*

Discussant: **Enrica Caporali**, *University of Firenze*

H 16:00-17:00

Roundtable:

A more self-aware Country: the knowledge of the hydraulic and geomorphological risk

Coordinator: **Constanze Reuscher**, *foreign press*

Panelists:

Chiara BRAGA

Environmental Commission,

Italian Chamber of Deputy

Valeria FEDELI

Vice President, Senato della Repubblica

Mauro GRASSI

Director, Hydrogeological Instability Mission

Commitee

Presidency of the Council of Ministers

Paola Carmela PAGLIARA

Service Coordinator, Department Civil Protection

Tommaso SODANO

Environmental Politics Expert

H 17:00-17:30

Final Remarks
