

# Discover Your Infrastructure of Public Value

## Start Building Public Value – Contributing Together to Global Goals

### Why it matters

Sustainability is not just compliance. It is an *infrastructure of public value* – a way of working that makes cooperation inevitable, strengthens trust, and drives innovation in public institutions.

### 3 Key Words

- **Transparency** → from compliance to real accountability.
- **Partnerships** → building cooperation across institutions and society.
- **Transformation** → turning public administration into an agent of change.

### Your Journey

- **Discover** → Learn how to apply the ISPRA model in **your institution**.
- **Connect** → Practices and co-create solutions with us.
- **Transform** → Use sustainability reporting as a driver of trust and innovation.

### Call to Action

 This is just the beginning. Start building infrastructures of public value today.
